### **Session - 1**

Osteoporosis is an international most discussed and prevalent illness. This is called "Silent Killer". Eyes can see what mind knows. This is high time to let us learn how to keep healthy and fit and away from such serious illness.

Denosumab.....The Generation Next in the Treatment of Osteoporosis.  
Speaker- **Dr.A.S.Prasad**

## Session - II

### Violence Against Doctors

In past years violence against doctors and nursing homes have increased especially when desired outcome of the treatment does not come. Often violence and legal proceedings start. Which has very detrimental effect on doctors' psyche? Many doctors have left the profession due to this reason or have stopped making efforts to save serious patient. They feel insecure, and their confidence on system and administration becomes low. In past in some of the incidences doctor even committed suicide.

All experts on this subject shall gather and put forward their views, They shall guide us how to do your work with full efficiency without fear & in emergent situation. We shall learn "What are the Dos and Don'ts" in emergent situation. You can also put your specific issue and find answer.
